

FINDER GREEN AWARDS 2024 METHODOLOGY

The Finder Green Awards aim to identify green brands across some of our main comparison categories including banking, insurance, superannuation and utilities.

This document explains the criteria and weighting we will use to assess each category and pick the winners. This is a submission based awards program so if you would like to nominate your organisation for an award then you can find entry forms at finder.com.au/finder-awards/green.

Entry guidelines and scoring

Entry Process:

Information for the Finder Green Awards will be collected directly from entrants through online submission forms. Where available, Finder will cross-check this information against publicly available information. We reserve the right to revoke submissions if any information provided is found to be false, misrepresentative or misleading. Specific data points provided by entrants will be used for judging purposes only and will not be shared externally without the entrant's explicit consent.

Online submission forms can be accessed at finder.com.au/finder-awards/green. Alternatively, you can request an offline submission form by emailing awards@finder.com. If you have additional evidence that you would like to submit then please send this to the awards email address above. Where relevant, this additional evidence will be considered alongside your completed submission form.

Date Ranges:

We request that all data entered through the submission forms relates to the 12 month period prior to 1st March 2024, with all responses being representative of the most recent data available in that period. If this data is not available then Finder will accept the most recent continuous 12 month period worth of data that is available for each question.

Scoring:

Finder will use a dynamic scoring system to decide the winner in each of the industry categories of the Finder Green Awards. Rather than awarding a set number of points for certain values, Finder's dynamic scoring system awards points relative to the other submissions by adjusting scores based on the actual range of submitted values for each category. These scores will then be adjusted to reflect the weightings shown as percentages in the tables below.

In some categories, there will be metrics that are not scored using the dynamic scoring system but are scored manually based on metric type. Finder also reserves the right to move to a static scoring system if there are not enough submissions for the dynamic scoring system to work effectively in a given category.

Additionally, where new information about an entrant becomes available between the time of entry and time of announcement, Finder reserves the right to consider this information in conjunction with the submission if it is deemed to have the potential to impact the outcome of the awards.

INDUSTRY AWARDS

Green bank of the year

Eligibility criteria: Company must have offered retail banking products to consumers in Australia for the 12 months prior to 1 March 2024.

General environmental criteria:

Current performance: 23%

- Emissions intensity
- Emissions intensity (inc. offsets)
- Energy from renewable sources
- Waste avoiding landfill

Environmental targets and reporting: 11%

- Emissions target
- Renewable energy target
- Waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 2%

Sector-specific environmental criteria:

Sustainable financing approach: 51%

- Negative screening
- Positive screening
- Climate positive financing

Climate-friendly products: 11%

- Deposits linked to sustainable outcomes
- Incentives/discounts for sustainable purchases or behaviour
- Carbon neutral products
- Other (specify)

Supporting evidence: 2%

Eligibility criteria: Company must have offered superannuation products to consumers in Australia for the 12 months prior to 1 March 2024.

General environmental criteria:

Current performance: 11%

- Emissions intensity
- Emissions intensity (inc. offsets)
- Energy from renewable sources
- Waste avoiding landfill

Environmental targets and reporting: 9%

- Emissions target
- Renewable energy target
- Waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 2%

Sector-specific environmental criteria:

Sustainable investment approach: 38%

- Clear policy in place
- Negative screening
- Positive screening
- Shareholder engagement

Environmental performance of portfolio: 38%

- Emissions intensity of portfolio
- Climate positive investments

Supporting evidence: 2%

Green lender of the year

Eligibility criteria: Company must have offered lending products to retail customers in Australia for the 12 months prior to 1 March 2024.

General environmental criteria:

Current performance: 48%

- Emissions intensity
- Emissions intensity (inc. offsets)
- Energy from renewable sources
- Waste avoiding landfill

Environmental targets and reporting: 10%

- Emissions target
- Renewable energy target
- Waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 2%

Sector-specific environmental criteria:

Climate-friendly products: 38%

- Sustainable purchases
- Incentives/discounts for sustainable purchases or behaviour
- Carbon neutral products
- Other sustainability initiatives

Supporting evidence: 2%

Green insurer of the year

Eligibility criteria: Company must have offered insurance products to consumers in Australia for the 12 months prior to 1 March 2024.

General environmental criteria:

Current performance: 40%

- Emissions intensity
- Emissions intensity (inc. offsets)
- Energy from renewable sources
- Waste avoiding landfill

Environmental targets and reporting: 20%

- Emissions target
- Renewable energy target
- Waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 2%

Climate risk and sustainable investment: 24%

- Climate change impacts factored in to risk management
- Climate-change factored in to investment decisions

Climate-friendly products: 12%

- Incentives/discounts for sustainable purchases or behaviour
- Carbon neutral products

Supporting evidence: 2%

Green energy retailer of the year

Eligibility criteria: Company must have offered energy plans to residential customers in Australia for the 12 months prior to 1 March 2024.

General environmental criteria:

Corporate environmental performance: 10%

- Corporate emissions intensity
- Energy used from renewable sources
- Waste avoiding landfill

Environmental target and reporting: 10%

- Emissions target
- Renewable energy target
- Public waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 3%

Sector-specific environmental criteria:

Generation assets and fuel production: 44%

- Emissions from generation assets
- Renewable power generation
- Fossil fuel production

GreenPower, offsets and clean tech: 30%

- GreenPower price and coverage
- Carbon offsets coverage and quality
- Support for clean tech (e.g. solar, EV, energy storage, demand response)

Supporting evidence: 3%

Green telco of the year

Eligibility criteria: Company must have offered a NBN/broadband, telecommunications, or mobile phone plans to retail customers in Australia for the 12 months prior to 1 March 2024.

General environmental criteria:

Current performance: 50%

- Emissions intensity
- Emissions intensity (inc. offsets)
- Energy from renewable sources
- Waste avoiding landfill

Environmental targets and reporting: 11%

- Emissions target
- Renewable energy target
- Waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 2%

Sector-specific environmental criteria:

Electrical waste: 9%

- Recycling / refurbishment

Climate-friendly products: 26%

- Carbon neutral products
- Incentives/discounts for sustainable purchases or behaviour
- Other (specify)

Supporting evidence: 2%

Green supermarket of the year

Eligibility criteria: Company must have offered grocery products to consumers in Australia for the 12 months prior to 1 March 2024 with a minimum of 10 supermarkets in Australia.

General environmental criteria:

Current performance: 45%

- Emissions intensity
- Emissions intensity (inc. offsets)
- Energy from renewable sources
- Water usage
- Waste avoiding landfill

Environmental targets and reporting: 19%

- Emissions target
- Renewable energy target
- Waste target
- Public climate change plan
- External benchmarks/accreditation

Supporting evidence: 2%

Sector-specific environmental criteria:

Supermarket-specific impacts: 21%

- Food waste avoiding landfill
- Packaging and plastic usage
- Sustainable produce options
- Initiatives to encourage sustainable customer behaviour

Supply chain impacts: 11%

- Environmental checks on suppliers
- Distribution

Supporting evidence: 2%

- Performance - 12 months
- Performance - 36 months
- Performance - 60 months

Supporting evidence: 2%

Green car of the year - EV

Eligibility criteria: EV-only car that must be available to order in Australia at the time of entering the 2024 Finder Green Awards.

Environmental criteria:

Environmental performance: 83%

- Battery range
- Battery warranty
- Speed of battery charge
- Other sustainability features

Other criteria:

Price and critical reception: 13%

- Price
- External third-party reviews

Supporting evidence: 2%

Green car of the year - Hybrid

Eligibility criteria: Hybrid car that must be available to order in Australia at the time of entering the 2024 Finder Green Awards.

Environmental criteria:

Environmental performance: 83%

- Tailpipe emissions
- Fuel lifecycle emissions
- Fuel/energy consumption
- Battery range
- Battery warranty
- Speed of battery charge
- Other sustainability features

Other criteria:

Price and critical reception: 13%

- Price
- External third-party reviews

Supporting evidence: 4%
